February 16, 1982

U.S. Environmental Protection Agency
Regional Administrator
Region 7
324 E. 11th St.
Kansas City, MO 64106

Dear Sir:

I wish to file the following Exception Reports as listed under 40 CFR 262.42, Exception Reporting, of the May 19, 1980 Federal Register.

This report covers two incidents over a period of seven months. Manifest Document Number 01514-001-006 dated 6-24-81 and Manifest Document Number 01514-001-005 dated 11-18-80. Attached is a copy of the Hazardous Waste Manifest Document for each shipment.

I have no records to indicate what happened to the shipment of 11-18-80. On the shipment of 6-24-81 the original copy of the Manifest apparently became misplaced in the office. A call was placed to the Howard Bend Facility and the shipment did in fact reach the destination.

Efforts to comply with the rules and regulations of the Federal EPA and Missouri Department of Natural Resources has been given a top priority with this Company and steps have been taken to comply.

Mr. Kenneth M. Gambaro, Environmental Engineer II, St. Louis Regional Office, Department of Natural Resources, confirmed in a letter dated October 5, 1981 that he had checked these two shipments and they had in fact reached the intended destination.

Sincerely,

NIXDORFF-LLOYD CHAIN CO.

Edmund G. Hughes
Project Engineer
